- Attempt all questions
- All questions carry equal marks
- Quality takes precedence over quantity! Please write to the point and don't add unnecessary details or information unrelated to the question
- Using of digital diaries, laptops, other electrical gadgets, mobile phones and books etc. is prohibited

**Question 1:** Who are Project Stakeholders? What role do they play in projects and why must project managers try to “manage” them?

**Question 2:** Discuss the relationship between projects and the (internal) organizational environment?

**Question 3:** Is Project Portfolio Management considered an essential input in the realization of the organization's goals, objectives and mission? Elaborate.

**Question 4:** Is a Project Methodology necessary for projects? Elaborate. Also, identify and briefly discuss the purpose of the project management process groups.
